Objective

Motivated and creative software developer with a solid foundation in full-stack web development, database management, and programming. Seeking to leverage skills in Java, JavaScript, and full-stack technologies to contribute meaningfully and grow professionally.

Core Skills

- **Languages:** Java, JavaScript, Python, SQL
- **Web Technologies:** React, HTML, CSS, Bootstrap, Node.js, Express.js
- **Version Control:** Git, GitHub
- **Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming

Experience and Projects

Fullstack Internship — LeadSoft IT Solution

August 2023

- Developed full-stack applications with React, Node.js, and MongoDB, following best practices for web architecture.
- Worked on various front-end components to enhance user experience, optimizing performance and scalability.

AI Image Generator Website

2024

- Created a web application that converts text inputs into images using HTML, CSS, JavaScript, and Hugging Face API.
- GitHub Link

CustomCraft Website

2024

- Designed and developed an e-commerce platform using Next.js, MongoDB, Prisma, and Tailwind CSS, enabling artists to sell custom art products.
- GitHub Link

Gold Jewellery Website (MERN Stack)

2023

- Built a full-stack website using MongoDB, Express, React, and Node.js, with features like product management for both admin and user panels.
- GitHub Link
